Press Release

EOS UPDATED ITS EXPERTISE BY GETTING THE CERTIFICATION OF WINDPRO ADVANCED COURSE

EOS Consulting, in order to always provide to its partners the best expertise available on the ground by implementing advanced and innovative solutions, according to the constant and continuous improvement philosophy, has recently updated its expertise by getting the certification of **windPRO Advanced Course**. WindPRO, developed by the Danish company EMD International, is the most widely used software for the simulation of wind energy projects and it is based on more than 25 years of experience within such field. Through windPRO, EOS Consulting is able to provide its Clients with high-level yield assessments on wind parks of every size and technology.
